

User Instructions – Wooden Decorative Ornaments

This list of safety warnings has been prepared based on the requirements of Regulation (EU) 2023/988 on General Product Safety (GPSR).

The purpose is to protect users from potential hazards resulting from improper use. The warnings are written in a simple and understandable way to be accessible to a broad audience, including elderly people and individuals with reduced mobility.

Scope:

These instructions apply to decorative ornaments made of solid wood or wooden plywood, intended for **indoor use only** (e.g. keychains, hanging decorations, table ornaments, figurines, garlands, seasonal decorations).

Usage Guidelines:

- These items are for decorative purposes only – they are not toys.
- They are not suitable for contact with food unless explicitly stated otherwise.
- Do not expose decorations to direct moisture – wood may swell, warp, or crack.
- Avoid contact with fire or high heat sources.
- For hanging decorations, ensure they are securely fastened and cannot fall.
- If the product contains small parts, keep it away from children under 3 years of age (choking hazard).

Cleaning and Maintenance:

- Clean with a dry or slightly damp soft cloth.
- Do not use detergents or chemical cleaners – these may damage the wooden surface or decorative finish.
- If the item is unfinished (not lacquered), you may occasionally treat it with a thin layer of natural oil (e.g. linseed or paraffin oil) to refresh the color and provide light protection.
- Store decorations in a dry place, preferably wrapped in paper or fabric to prevent scratches.
